Summary. New substitute name Issadiella nom. n. is proposed for the genus Isadia Aristov, 2008 (Insecta: Reculida: Tunguskapteridae) to avoid homonymy with the ray-finned fish genus Isadia Minikh, 1986 (Osteichthyes: Eurynotoidiformes; Eurynotoidiidae).

Key words: Insecta, Reculida, Isadia, Issadiella, taxonomy, Permian.
