

## SHORT COMMUNICATION

**Arefina T.I. THREE NEW TO THE RUSSIA SPECIES OF THE CADDIS-FLIES (TRICHOPTERA: LEPTOCERIDAE) - Far Eastern Entomologist. 1997. N 47 : 18.**

**Т.И. Арефина. Три новых для России вида ручейников (Trichoptera: Leptoceridae) // Дальневосточный энтомолог. 1997. N 47 : 18.**

During the expedition over a number of watercourses in Primorye and Khabarovskii krai in 1996 three new to the Russian fauna species of the family Leptoceridae were collected. All material is deposited in the collection of the Institute of Biology and Pedology, Far Eastern Branch of Russian Academy of Sciences (Vladivostok). This work was supported by the Russian Fund of Fundamental Investigations (grant N 96-04-50388).

### ***Ceraclea coreana* Kumanski, 1991**

MATERIAL. (25 ♂). Khabarovskii krai: 20 ♂, Ussuri River, Zabaikalskoye, 23.VII 1996 (T. Arefina); 1 ♂, Kiya River, Ussuri River basin, Ekaterinovka, 26.VII 1996 (T. Arefina). Primorskii krai: 2 ♂, Ussuri River, Gornye Klyuchi, 18.VII 1996 (T. Arefina); 2 ♂, Bolshaya Ussurka River, Ussuri River basin, Dalnerechensk, 4.VIII 1996 (T. Arefina).

DISTRIBUTION. Russia (new record): Primorskii krai, Khabarovskii krai. Korea.

### ***Ceraclea superba* Tsuda, 1942**

MATERIAL. (2 ♂). Khabarovskii krai: 1 ♂, Ussuri River, Zabaikalskoye, 23.VII 1996 (T. Arefina). Primorskii krai: 1 ♂, southern shore of Khanka Lake, 17.VII 1996 (T. Arefina).

DISTRIBUTION. Russia (new record): Primorskii krai, Khabarovskii krai. Japan (Honshu). China.

### ***Oecetis morii* Tsuda, 1942**

MATERIAL. (1 ♂). Primorskii krai: southern shore of Khanka Lake, 17.VII 1996 (T. Arefina).

DISTRIBUTION. Russia (new record): Primorskii krai. Japan (Honshu).
